PRESIDENT

Greetings

August has been a very busy month for me with family activities plus working with the County and the Roann Covered Bridge Association to have our bridge painted.

As a result of Fuzzy being in an accident, Brenda Kinnett has graciously volunteered to assist with the Lively Lady rally. There are special things planned for Lively Lady in celebration of Tri-State Travelers' 50th Anniversary. There will be a board meeting on Saturday as well as the membership meeting, during which the election will be held.

Hope to see you at Lively Lady or hear from you,

Cindy Donovan, President

1ST VP (ACTIVITIES) CORNER

Lively Lady Campground September 11 - 14, 2024 Aberdeen, OH 45101

Lively Lady Campground is such a fun place! Many of us have been camping there a few times and have enjoyed watching the boats and barges on the river as well as visiting the very cool town on the other side of the river called Maysville, Kentucky, where there are lots to see and do. They have some great little restaurants there, too! Thanks to Cindy, our President, who had already completed much research in the area, my job of finding things to do was easy.

Kentucky Gateway Museum Center - 215 Sutton St, Maysville, KY 41056-1109
Three Historic Collections in One Dynamic Place! Explorers. Movie Stars. Artists. Pioneers. Slaves.

Everyone who ever passed through this part of Kentucky or called it home left a story behind. Some are stories of courage and great achievement, others of love and everyday survival. The Kentucky Gateway Museum Center brings all the stories of the region into fascinating focus:

Genealogical and Historical Research Library, sheds light on the people and events of a seven-county area through an extensive collection of books, manuscripts, and documents from colonial times. The Regional History Museum illuminates the past through award-winning dioramas, more than 4,000 regional artifacts, and a gallery of fine art related to the area.

KSB Miniatures Collection looks at the world from a new perspective through mesmerizing, 1/12-scale reproductions of homes, furnishings, clothing, artwork, and people.

Changing Exhibits Gallery that has been hosted to award-winning traveling exhibits such as the "The World We Create", "Children Just Like Me", "The Cabaret Mechanical Theatre", "Brain Teasers", "Everybody Eats", "Herblock", and many others.

Step outside the Center, and you will discover that Maysville's stately architecture has more than a few great tales to tell, as does the pioneer graveyard located behind the Center.

Apron Strings Quilt Shop - 52 W 2nd St, Maysville, KY 41056-1137

This shop is very well stocked, knowledgeable, and extremely helpful employees

Eat Gallery 46 W. 2nd St. Maysville, Ky. 41056-1143

The EAT Gallery opened its doors during the 2006 Rosemary Clooney Festival. The gallery highlights unique handcrafted jewelry by artisans from around the world and displayed alongside mineral specimens, natural stone carvings, framed butterflies, local art, and a host of other treasures that celebrate the wonders of nature and earth. The building used to be the home of Morgan's diner. When Simon first visited Maysville in 1991, the first place he was told about was Morgan's and the diner left an indelible impression. The iconic neon "EAT" sign on the front of the building was refurbished to help preserve the history of downtown and was the inspiration for the gallery's name Exquisite Art Treasures.

National Underground Railroad Museum - 8 W 4th St, Maysville, KY 41056-1120

The museum is inside a historically significant home on the Underground Railroad. There are many exhibits in the museum depicting different parts of life for conductors and slaves struggling to escape to freedom. You will be able to go downstairs and see the area where people were given safe harbor and hear about the incredible work of the abolitionists who lived there.

The Old Pogue Distillery - 716 W 2nd St, Maysville, KY 41056-9777

The Distillery is in a beautiful location. If you are interested in a real small distillery that has a very long history and is still in the original family with very modern equipment and excellent bourbon and rye, then this is the perfect place. Learn some interesting bourbon history. Free tasting of their two products - bourbon and rye. Make sure you call ahead! Their hours are very limited.

Russell Theater is a Historic Gem – 17 E 3rd St., Maysville, KY 41056

where Rosemary Clooney, who grew up in Maysville Kentucky, wanted to premiere her hit movie, "The Stars Are Singing".

The Russell Theater
So much to see and
Very Interesting to read.

Washington Opera House – 100-120 w 2nd St., Maysville, KY 41056

A review stated - "The theater and the actors were exceptional. The price was cheap and we had an exciting time. We will definitely go back!!!"

Other areas:

Kinthead Ridge Vineyard and Winery - 904 Hamburg St, Ripley, OH 45167-1435

The Rlidge had a tasting room and in a subdivision house and located in a residential area. The people are friendly and engaging and the one man even played a song on his violin. Perfect! Great

wine, cheese cubes, and violin music! Ripley is about 8 miles from Aberdeen.

John Rankin House - Ripley, OH

The tour guide was a great source of information, and I greatly enjoyed learning more about John Rankin and the Underground Railroad. The view from the hill was breath taking. Great site and grounds as well. Amazing views of Kentucky and the Ohio River.

John Parker House - 330 N Front St, Ripley, OH 45167-1016

Moyer's Winery - 3859 US Route 52, Manchester, OH 45144-8338 (11 miles from Aberdeen)

EDITOR'S CORNER

At present, we are still without a "Rally Master." Therefore, Judy and Fuzzy are overseeing the "Rally Master's" responsibilities, and Fuzzy is trying to stay ahead of things. PLEASE, you must verbally tell Fuzzy if you need to cancel a registration. The cancellation must be verbally made to him before our money is due to the Campground. Thanks for your cooperation.

Tri-State Traveliers are in their 50th year anniversary. Fuzzy is asking each of you to search your minds for things you have experienced throughout these 50 years. Some things funny, great places we went to, some would be sad things, but most of all, the friends you met.

Also, Fuzzy tells us there will be a big 50th anniversary celebration September 2024 at Lively Lady Campground Aberdeen, OH. Come and Join us.

Best Known For Lightbulbs, Phonographs, And Film, Thomas Edison Also Invented?

Cast-Molded Concrete Houses

Thomas Edison was involved in a wide range of endeavours, many of which are practically unknown today. In addition to his more recognized work involving electricity, sound, and film, Edison also contributed significantly to the concrete industry.

In the 1880s, Edison had a productive, but unprofitable, ore milling company. One of the by products of the ore extraction was huge amounts of waste sand which Edison found was particularly well suited for concrete production. Using technology from his ore company and all the waste sand, he jumped into the concrete business. True to his nature, Edison didn't just make concrete, he invented all sorts of construction techniques and uses for it including the [first re-usable molds for a cast-concrete home](#).

He was so enamored with the idea of using concrete in construction and domestic life that he even experimented with concrete furniture, pianos, and refrigerators. Although his concrete furniture never went into production, his concrete houses did and the techniques in concrete creation and casting he invented strongly influenced the development of the industry in the 20th century.
